Year 3- Weekly Newsletter

We are onto the final week of Year 3 and our last week of home learning for the summer term! It was lovely seeing so many of you last week and I just wanted to say again how proud I am of all of you with how well you have dealt with the challenges of lockdown. Parents this includes you as well and thank you for your continued support throughout these strange, unprecedented times. For our final week, we have set a daily Maths and English task as usual but I also want to emphasise that if we were at school, our last week would have been filled with lots of trips and fun activities. Therefore, I haven't set you any PM activities for our final week as I hope you can get outside in (fingers crossed) some lovely weather, be creative and have some fun! ☺ As always, you will find all the links you need for your Maths and English lessons and resources on this week's blog page on our website. As always, the activities are NOT compulsory but are there to offer you support. Remember to send any final photographs of your activities to yearthree@baxenden.lancs.sch.uk. Have a great week, a lovely summer and I look forward to seeing you all in September as you make your way into Year 4! Take care and have a lovely summer holiday. ☺ Miss Shore x

Maths Activities

Times Table Rockstars:

Our final TT focus this week will again review all the times tables the children should now know including the x2, x3, x4, x5, x6, x8 and x10. I have set these to continue throughout the summer holidays as well if your child would like to keep practising.

White Rose Hub:

Use the link below to access the White Rose Hub. On here select the Year 3 work and each day an explanatory video will be available. These are clear to follow with models on how the children should go about answering a question. The follow up daily work sheets are attached to this blog for the children to download and complete. They are clearly named and labelled for each day. The answer sheets are also attached should you require them.

<https://whiterosemaths.com/homelearning/>

BBC Home Learning:

The BBC will also be offering daily maths lessons which will be available on their website and also through BBC iPlayer if you require further maths work for your child.

English Activities

Lancashire Team English and Reading Planning – Daily English Lessons:

Each week we will be updating our class pages on the website with English planning written by the Lancashire English team. Our final week of planning is called, **'Fun with Film!'** This week will focus on examining characters and settings through the use of film. There will be opportunities to look at character thoughts, feelings and reactions to different situations before completing some responses in writing. Spend a day being inspired by poetry through film with some exciting activities to complete, and, to finish the week, learn all about The Story of Lego! The plan is clearly broken down into daily sessions and we advise you to spend between 40 minutes to an hour on these activities. The plans provide you with various activities to support this week's topic but it is your parental judgement on how many activities you think your child would like to complete. *As usual, support templates for each day's learning should you wish to use them are attached to our blog page. Listening to feedback, I have tried to keep the templates to one page where possible!* All the links required to complete the unit are available on the PDF on our class webpage. Enjoy a final fun week with film. ☺

Weekly Reading Comprehension:

A final reading comprehension will also be set. This week the children have got a comprehension based on returning to school after the holidays. I have chosen this one to link with/give the children ideas of the questions they may like to ask Miss Abraham's for their transition video. A text explaining this was sent out on Friday but to support your child/children's transition to the next year group, each teacher is going to make their new class a short video of what they can expect and look forward to in their new class. If your child has any questions about Year 4, please email them to year4@baxenden.lancs.sch.uk and Miss Abraham's will do her best to answer as many as possible in your video which will be available to view at the end of the week. A PDF of the comprehension has been attached to the blog for you to download called: ENGLISH: Comprehension – back to school.

Active Learn:

A final few books will be set on Active Learn for your child/children to complete. Children should read the texts and when they see a bug character, they need to click on it and answer the comprehension questions that relates to that page. To log in, visit:

<https://www.activelearnprimary.co.uk/login?e=-1&c=0>

Username: *firstname.initial of surname* Password: *year3 School Code:jstr*

Extra Information

Remember to send any transition questions to Miss Abraham's at: year4@baxenden.lancs.sch.uk and look out for the transition activity she sets for you to complete over the summer holidays in your transition video ☺

A final paper pack is also attached to the blog with **additional English, Reading, SPaG and Maths activities** should you require it. Remember, it is the final week of term so no PM activities have been set. Have some fun (whilst staying safe)! You have all worked incredibly hard this half term! ☺

Let's Share- Year 3's Home Learning Fun

Here is our final 'Let's Share' page. It has been lovely to see all of your emails and pictures throughout our lockdown period. ☺ For our last page, I've made a little pic collage of some of our favourite moments through Year 3!

Also, please remember and don't worry if you don't manage to complete all of these activities. They are NOT compulsory but are there to offer you support.

Have a great week and a lovely summer Year 3! Stay safe and I'm looking forward to welcoming you all back to school in September! ☺
Take care everyone.
