

Good morning!

Sadly, we can't be together this week so I will be setting work online for you to do.

These are your lessons for today. Please do your best!

Each day, there will be a daily blog on the class page of the website with everything you need for your learning.

English

Please log in to Purple Mash to find your set '2Dos'. Your task is to read the set chapter in 'The Ferocious Cake Off'. Last week you read Chapter 1 and 2 and today you have Chapter 3 set to read. After you have read the chapter, answer the quiz questions. You then have an English and PHSE linked activity based on teamwork to have a go at that relates to the chapter you have just read.

SPaG (Spelling, Punctuation and Grammar)

Please log in to Purple Mash where you will find a '2Do' set to practise this week's spellings. Additionally, you have an additional '2Do' based on phoneme sounds.

Reading

Please continue to read daily and fill in your reading diary as usual. Don't forget you can answer one of the comprehension based questions that are stuck in the front of your reading diary.

Maths

Please follow the link to the White Rose video (<https://vimeo.com/454674857>). Today, you will be looking at reading a number line up to 100 and finding out missing intervals. Work through the video and complete the attached sheet called 'Monday Maths' found on today's blog page. Afterwards, you can log in to MyMaths where an additional activity linking to today's work 'Number facts and doubles' can be found.

Please also log into Times Table Rockstars to practise your times tables.

Afternoon subjects- Science and PE

On a Monday afternoon, you would normally have your science lesson and your games based PE lesson.

For science, use the link to watch the video all about the different bones in our body (<https://www.youtube.com/watch?v=2k6H2Vnn3o4>). Using what you find out from the video, go onto Purple Mash and complete the '2Do' titled 'All about the human skeleton'. On there, tell me all the facts that you have discovered.

Monday 21st September

In PE, use this Joe Wicks video as your warm up to get yourself ready to move and your heart pumping (<https://www.youtube.com/watch?v=uqLNxJe4L2I>). We need to have fast feet in the game of netball so to practice your speed at home follow the next link and complete missions 1 and 2 from UK Active Kids (<https://ukactivekids.com/movecrew-theme-2/>).

Have a lovely day! Please keep yourselves safe and keep smiling!

See you soon.

From Miss Shore
