

Herbivore

Carnivores, Herbivores, Omnivores

Herbivores

Are animals that only eat plants.

These can be flowers, fruit, nuts, grass or even wood.

“It’s time to eat!”

Omnivore

Carnivores, Herbivores, Omnivores

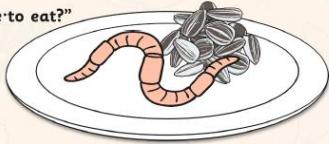

Omnivores

Are animals that eat meat and plants.

For example, a chicken can eat both worms and seeds.

"What do I like to eat?"

Carnivore

Carnivores, Herbivores, Omnivores

You could remember the word

Carnivore

By thinking of chilli con **carne**, which is a kind of dinner made with meat.
