

"THE BEEHIVE" PROJECT

Safeguarding the mental health and
wellbeing of Baxenden's children

Now, more than ever, it is so important that we safeguard the mental health and wellbeing of our children. The Beehive project is designed around just that.

We want to create a nurture room, called "The Beehive" within the school to provide a safe space for children to receive support with their mental health and emotional wellbeing. Not only that but we also want to provide teachers with the necessary training and child designed programmes to help build the emotional wellbeing and resilience of our children so that they are able to take on challenges in the future.

THE PROJECT

By the summer of 2022, we aim to raise £10,000. This is an ambitious target but one that we believe we can achieve with the help of grants and the support of the local community and businesses,

The £10,000 will cover the following:

- The structural alterations to the school building to create the nurture room.
- The necessary equipment and furniture for the room to create a calm and safe atmosphere.
- The purchase of programmes designed to support the emotional health and wellbeing of children within schools.
- The necessary training for the staff so that they feel confident in delivering the programmes to the children.
- Provision in support of the health and wellbeing of staff.

We aim to raise the money through a selection of methods including:

- Child sponsored events
- Online money raising page
- Applying for grants
- Local business sponsorship

If you think you can help with us reaching our goal or just want to find out more please contact the school or the ptfa on baxendenptfa@gmail.com or on our Facebook page.
